[FOR INSERTION ON CALFED FAX COVER SHEET]

To: Terri Barry, Department of Pesticide Regulation  
From: Judy Heath, CALFED Water Quality Program  
Subject: Comments on the CALFED Water Quality Program  
Fax No. 916/324-4088

No. of pages: 1  
(including cover)

The CALFED Water Quality Program would like to respond to a comment received from a stakeholder stating the following:

*"While reviewing the subgroups write up there was some information which was not correct such as 'Chlorpyrifos should be removed from the list of parameters of concern associated with urban runoff because it is not used in urban areas.' This is not true since many household cleaners such as Ortho, etc., use this as main ingredients."*

The CALFED Water Quality Program previously received information from the Department of Pesticide Regulation indicating that chlorpyrifos was not available for domestic use. It would be appreciated if you could provide us information regarding this matter. Thank you.
